For anyone who wants to audition for our upcoming musical,
Madagascar Jr:

Part of your audition will consist of singing a song. We would like you to pick one of the songs on the Madagascar Jr. audition playlist found under the video tabs on the Facebook page. (Once our website is up and working, I will post it there also.) There are four songs you can choose from. Anyone can sing any of the songs -- it's completely your choice. There are no specific songs for girls or boys as in past shows. For each song, there are two versions -- one with vocals and one without (a karaoke version). Please learn the song with the vocal version. Get it so you know it well. If you want to, you have the option of performing it with the karaoke track, but this is optional. We will have all the music at the audition. Please try to have it memorized, but if you can't, you may bring in the words on a piece of paper. If you can't learn any of these 45-second pieces of the songs, you can sing something else, but it is really preferred that you try to learn one of the choices we have here since they are from the musical you will be performing in. If you do sing a song that is not from this musical, please try to bring music to sing along to. If you have any question, contact me, Alex Moore, Vocal Director, at mooreaec@icloud.com
